# CARNET DE L'ALCHIMISTE

Parmi les pages d'un vieux carnet délaissé, des dessins botaniques et des notes manuscrites racontent l'histoire d'un savoir oublié. Le Carnet de l'Alchimiste.

Un livre qui renferme les secrets d'un jardin disparu, autrefois caché sur les hauteurs de Marseille, un lieu où les herbes sauvages s'entrelacent aux légumes à la couleur éclatante et aux fruits gorgés de soleil. Un jardin dont le parfum de l'herbe fraîche se mêle au vent iodé.

Il y a des siècles, un alchimiste parcourait la garrigue, collectant les trésors de la nature aux pouvoirs insoupçonnés : thym sauvage, poivron vert croquant, agrumes éclatants... Il ne cherchait pas des remèdes, mais des élixirs capables de réveiller les émotions, d'éveiller chaque sens. Son jardin a disparu, mais son carnet, lui, a traversé le temps.

Aujourd'hui, il repose entre les murs de Nectar, où ses recettes reprennent vie. Chaque cocktail s'inspire de ses distillations, infusions et macérations. Basilic pourpre, ananas frais et acidulé, racines anciennes...

Chaque verre raconte un souvenir, une saveur, un fragment de ce savoir ancien. En tournant ces pages, vous plongez dans la légende du Jardin Alchimique. Un carnet à boire, une histoire à savourer, un cocktail à déguster.

# THE ALCHEMIST'S NOTES

Among the pages of an old, abandoned notebook, botanical sketches and handwritten notes tell the story of a forgotten craft. The Alchemist's Notebook.

A book holding the secrets of a vanished garden, once hidden in the heights of Marseille, a place where wild herbs intertwined with vibrant vegetables and sun-drenched fruits. A garden where the scent of fresh grass mingled with the salty sea breeze. Centuries ago, an alchemist wandered through the *garrigue*, gathering nature's unsuspected treasures: wild thyme, crisp green pepper, radiant citrus...

He wasn't searching for remedies but for elixirs — potions meant to awaken emotions, to stir every sense. His garden may have disappeared, but his notebook has withstood the test of time. Today, it rests within the walls of Nectar, where his recipes come back to life. Each cocktail is inspired by his distillations, infusions, and macerations. Purple basil, fresh and tangy pineapple, ancient roots...

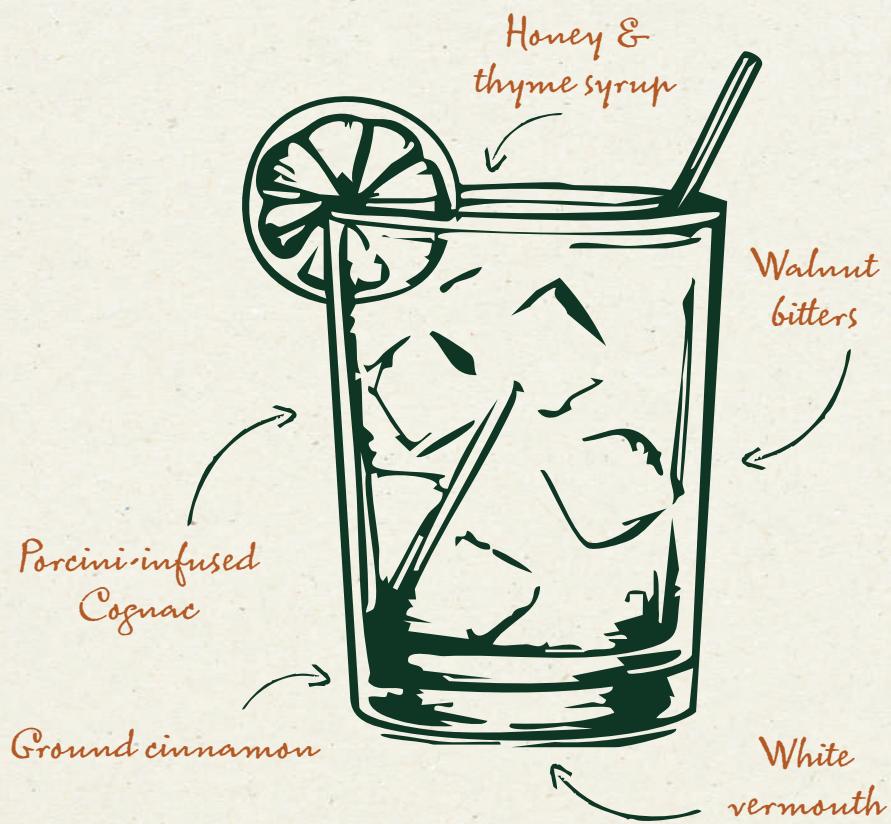

Every glass holds a memory, a flavor, a fragment of this ancestral knowledge. As you turn these pages, you step into the legend of the Alchemic Garden. A notebook to be savored, a story to be experienced, a cocktail to be enjoyed.
